

PM Fund Drive for Typhoon Victims

Appeal for Solidarity with Typhoon Victims in the Philippines

(All paypal donations will be received by Ian Seruelo, PM-Liaison Officer in the U.S. An electronic acknowledgment receipt will be emailed to all donors. Thank you so much!)

The most powerful typhoon ever recorded in the Philippines and one of the worst in the world, super typhoon Haiyan/Yolanda slammed the central part of the archipelago and wrought devastation in its wake. The true extent of the damage to lives and property is yet to be known as Haiyan/Yolanda destroyed critical communications and power infrastructure thus limiting access to the worst hit areas.

Partido ng Manggagawa (PM) [Labor Party-Philippines] is appealing for solidarity and assistance to ordinary workers and poor who have suffered from the super typhoon's impact. PM members among informal drivers and the urban poor in Tacloban, Leyte were among those severely affected and will be among the focus of the relief assistance.

The super typhoon swept through the islands of the central Philippines from Cebu to Panay where PM maintains chapters in the key cities. In Cebu and Bohol, the devastation of the typhoon comes on top of the destruction brought by a magnitude 7.2 earthquake less than a month ago. As in all the disasters brought about by climate change, the urban and rural poor suffer the most.

PM is appealing for assistance so it could offer relief at least to families of workers and poor which it has already organized. Relief assistance would complement the organizing efforts of PM on the basis of urban poor and working class issues.

PM is a political organization of the working class which engages in parliamentary struggle as a extension of the parliament of the streets. Even as PM has a strategic vision of social change, it actively fights for social reform and even involves in relief efforts as means to arouse, organize and mobilize the working people.
